40 horas (5 dias).

Conteúdo Programático

OUTLINE COURSE

Module 1: MS-102 Configure your Microsoft 365 tenant

This learning path provides instruction on how to configure your Microsoft 365 tenant, including your organizational profile, tenant subscriptions, user accounts and licenses, groups, custom domains, and client connectivity.

Module 2: MS-102 Manage your Microsoft 365 tenant

This learning path provides instruction on how to manage your Microsoft 365 tenant, including administrative roles, tenant health and services, Microsoft 365 Apps for enterprise, and workplace analytics using Microsoft Viva Insights.

Module 3: MS-102 Implement identity synchronization

This learning path examines how to plan for and implement identity synchronization in a hybrid Microsoft 365

deployment, including how to implement Azure AD Connect and how to manage synchronized identities.

Module 4: MS-102 Explore security metrics in Microsoft 365 Defender

This learning path examines the threat vectors and data breaches organizations face today in their cybersecurity landscape, and the wide range of security solutions that Microsoft 365 provides to combat those threats.

Module 5: MS-102 Manage your security services in Microsoft 365 Defender

This learning path examines how to manage the Microsoft 365 security services, with a special focus on security reporting and managing the Safe Attachments and Safe Links features in Microsoft Defender for Office 365.

Module 6: MS-102 Implement threat protection by using Microsoft 365 Defender

This learning path examines how to manage the Microsoft 365 threat intelligence features that provide organizations with insight and protection against the internal and external cyber-attacks that threaten their tenants.

Module 7: MS-102 Explore data governance in Microsoft 365

This learning path introduces you to the data governance features of Microsoft 365, which serve regulatory compliance, can facilitate eDiscovery, and are part of a business strategy to protect the integrity of the data estate.

Module 8: MS-102 Implement compliance in Microsoft 365

This learning path provides instruction on implementing the Microsoft 365 data governance features, including how to calculate your compliance readiness, implement compliance solutions, and create information barriers, DLP policies, and policy tips.

Module 9: MS-102 Manage compliance in Microsoft 365

This learning path provides instruction on managing the Microsoft 365 data governance features, including how to implement retention in email, sensitivity labels, and Windows Information Protection, and how to troubleshoot data loss prevention issues.
